DID YOU KNOW?

There are two main types of income streams that we need to understand:

ACTIVE INCOME

Active income is money earned through direct effort, such as working a job, consulting, freelancing, or running a business.

PASSIVE INCOME

Passive income is money that is earned with little to no ongoing effort after the initial set up, such as letting properties, dividends from stocks, etc.

At Genistar we care deeply about our clients and do all that we can to make sure they have a good experience with us. We want every customer to be better off after their interaction with Genistar.

Exceeded my expectations, I am so happy!

Had my second meeting with my Genistar Representative, it was amazing. My Genistar Representative made my financial situation less daunting and now I understand what I need to achieve financial stability. Seeing it all laid out on paper through charts, diagrams and text has actually made me excited to hit those goals that my Genistar Representative helped me set.

I am looking forward to our follow up meeting.
